CUSTOMER SPOTLIGHT

MILLER MECHANICAL
GLENS FALLS, NY

Miller Industrial Manufacturing is a full-service fabrication, machining, and industrial manufacturing company headquartered in Upstate New York. As an ASME-certified manufacturer, we provide engineering support, large-scale fabrication, precision machining, waterjet cutting, assembly, quality control, and field installation services to customers across a variety of industries, including pulp and paper, power generation, heavy industrial, and process manufacturing. Our capabilities include the fabrication of pressure vessels, heat exchangers, structural components, piping systems, platforms, specialty equipment, and custom-engineered solutions. With a highly skilled workforce and a commitment to safety, quality, and customer satisfaction, we have earned a reputation for delivering complex projects on time and to the highest standards.

We value our long-standing relationship with Haun Welding Supply, a trusted partner that plays an important role in supporting our manufacturing operations. Haun provides reliable access to welding equipment, consumables, industrial gases, safety products, and technical expertise that help keep our fabrication and machining operations running efficiently. Our partnership is built on shared values of quality, service, and commitment to the manufacturing industry, and through their responsive support and industry knowledge, Haun Welding Supply continues to be an important contributor to our ability to deliver exceptional products and services to our customers.
